React.js · Redux · Next.js · HTML5 ·  
CSS3 · Typescript · Java · OOPs ·  
SpringBoot · MySQL · JIRA · Git

## EDUCATION

### Bachelor's Degree in Information Technology

Kamla Nehru Institute of Technology

07/2017 - 07/2021 Sultanpur, U.P

## SUMMARY

Motivated web developer with 3 years of experience and a strong skill in React.js, Redux, Next.js, TypeScript, HTML, CSS, Java, Spring Boot and MySQL. Seeking a position that leverages my skills and passion for programming in a remote and distributed environment.

## EXPERIENCE

### React.js Developer 08/2022 - Present Rawcubes India Private Limited, Noida

- Contributed to web development projects using React.js and Typescript.
- Migrated Syncfusion components to Material UI components for the entire website as part of a team effort.
- Used Redux for state management and made API calls using Thunk middleware
- Collaborated with the team to build interactive user interfaces and improve user experiences.
- Integrated third-party APIs to enhance application functionality and data retrieval.
- Participated in debugging and troubleshooting to enhance application performance
- Actively contributed to peer code reviews to ensure high-quality standards
- Refactored existing code to increase efficiency and reduce redundancy.

### Junior Software Engineer 08/2021 - 07/2022 Brain Technosys Pvt Ltd Noida

- Contributed to all phases of the development lifecycle, from design to writing and developing, mostly on the backend.
- Developed APIs to return data for the dashboard.
- Skilled in CRUD operations, proficiently implementing Create, Read, Update, and Delete functionalities to manage data effectively in applications.

## PROJECTS

### iDataOps 11/2023 - 2024

Machine Monitoring Software :- Overcome downtime challenges by tracking machine operations in real-time, utilizing advanced OEE, and enhance overall operational efficiency.

### qDataOps 08/2022 - 11/2023

Introducing Quality Console, a centralized Quality Control Command Center for real-time monitoring of manufacturing quality checks. Automate data quality checks, streamline inspection processes, and empower decision makers with data-driven dashboards. Elevate your quality management system and make informed, strategic decisions for enhanced business performance.

### Data Asset Management System 08/2021 - 07/2022

Developed a web app to track assets and employees, manage attendance, and maintain vendor and office information.

**Utilized Technologies:-** Spring Boot, React.js, and MySQL.
